Mobility Services is focused on improving existing transportation options and coordinating a community-wide transportation service network comprised of transportation providers to meet the needs of our citizens. Persons in need may include older adults, people with disabilities, and low-income individuals without personal vehicles.

Some of the transportation providers have vehicles that are equipped with lifts or ramps to assist passengers who need to board while using wheelchairs, walkers, or other devices. There is no additional charge to ride on these vehicles. Inform the reservations agent of this need when the reservation is made. Drivers will assist passengers into and out of the vehicle and will assist with small packages, Service animals and portable oxygen tanks are permitted.

Please register online by completing the online [Mobility Services Registration Form \(PDF\)](#) and visit the website for [Mobility Services Rider's Guide](#) for complete information on services.
