Eastern Healthcare Group, Thalia Gardens provides a full range of nursing medical services to treat the residents and the patients who come to us for short-term, episodic medical or rehabilitative care.

Thalia Gardens offers dementia care. Specialized programming and care approaches are designed to create personal successes for each resident, helping the resident to experience positive emotions. The therapeutic environment is supportive rather than curative. The staff is trained in clinical care and is well-versed in the recent advances in dementia and Alzheimer's.

The care we deliver includes daily nursing, pharmacy, dietary and social services for all residents and patients, as well as a range of specific services. Offers RNs, LPNs, CNAs, physical therapists, speech therapists, occupational therapists, and social workers.
