The Association for Research and Enlightenment offers Edgar Cayce's A.R.E. Library. The library houses one of the largest collections in the world - 65,000 volumes specializing in the fields of metaphysics, parapsychology, comparative religious studies, holistic health, ancient civilizations, and foreign language editions of Edgar Cayce books.

Books may be checked out if you are a member of Edgar Cayce's A.R.E, a student of Atlantic University or if you are a Hampton Roads resident A.R.E. library member.

Visitors can view creative displays from local artists and test their psychic ability with the ESP tests available on site.

The Association provides a non-profit open-membership organization interested generally in research and exploring transpersonal subjects such as holistic health, ancient mysteries, personal spirituality, dreams and dream interpretation, intuition and philosophy and reincarnation.

Edgar Cayce founded the organization and more than 300 books have been written about his life and work. Also offered are free daily lectures on: understanding psychic ability, holistic health, reincarnation, dream interpretation, and spiritual development.
