Georgetown University Hospital's [Health Information website](#) section provides in-depth information about diseases and common health conditions, along with an array of interactive tools to help you assess your health. You can also search and register for a variety of health education seminars, screenings, and special events.

Georgetown University Hospital also offers a series of community lectures on topics such as Seizures and Epilepsy, Acute Stroke and Interventions, Prostate Cancer, and more. A search tool is provided on the website to search and view the wide range of classes, events, screenings and support groups.
