After an initial discussion about issues that are a problem and goals, a hypnosis program will be designed specifically for you.

Hypnosis can be used for any positive change that involves the subconscious or unconscious mind. Here are some of the goals hypnosis has been successful in treating:

- Quit smoking,
- Weight loss,
- Drug addiction,
- Reduce pain,
- Remove fears,
- Phobias and anxiety,
- Public speaking,
- Stuttering,
- Insomnia,
- Anorexia,
- Migraines,
- Chronic fatigue,
- Anger.

Hypnotherapy can help with self-improvement goals such as assertiveness, problem-solving, communication, goal achievement, creative thinking, decision-making, memory recall, and more.

Service Area(s)
