Compassus offers Palliative Care to patients with a serious illness to feel better physically, emotionally, and spiritually. Palliative care is available to someone as soon as they are diagnosed with an illness. The staff will do an assessment from the family, patient, and caregivers to find what level of relief care is right at which time and points. Different care can include:

- help with fatigue and sleep
- managing nausea, appetite, constipation

- reducing anxiety and depression
- managing pain to meet the patients' goals
- medical social services
- and more
